The provisions made for the care of  
 the injured and sick and general  
 health protection comprise the ac-  
 tion of 25 hospitals, 297 emer-  
 gency stations, 62 first aid training  
 stations, the employment of 285 sur-  
 geons, not including 191 outside sur-  
 geons on call, 217 nurses, 169  
 dentists and hospital attendants and  
 75 visiting nurses.

The educational and Americaniza-  
 tion activities require a staff of 213  
 teachers and instructors.  
 One hundred seventeen safety in-  
 spectors give their entire time to  
 seeking out the causes of accidents  
 and devising the best means of pre-  
 venting them. In the various plants  
 there are 35,574 employees who have at  
 some time served on the safety com-  
 mittees, 7,258 now being so engaged.  
 In first aid and rescue work instruc-  
 tion and training have been given to  
 10,881 employees and 487 are now in  
 training. The benefits derived from  
 these exercises was a reduction of 16.64  
 per cent in fatal and 6.99 per cent in  
 non-fatal accidents during the year.

Aside from the foregoing the report  
 is interesting to the people of the  
 Conneltsville region because of the  
 part the U. S. Steel Corporation has  
 in it. This is shown by a series of  
 illustrations the chief of which is  
 the first aid and mine rescue contest  
 held in Pittsburgh in 1919 when the  
 Standard mine team was first place

## Just Folks

By A. G. Guss

### THE YOW.

I used to think it mattered, used to  
 think I had to be  
 Foremost of the business of people  
 wealth for me.  
 Then I gave myself to labor and  
 beat my back to the wall.  
 And to make myself, the richer oft  
 I turned the middle of it.  
 Till one day a little fellow seemed to  
 look me through and through.  
 And he asked if I had ever been in  
 any thing men do.  
 It was just a youngster's question, but  
 I heard me say a word.  
 He had heard me talk my business and  
 I had seen him come and go.  
 He had watched me night and morn-  
 ing, after hours of slumped  
 slumped or obstructed by arguments  
 I had made.  
 And he had come to the conclusion, I  
 could see, and a doubt.  
 That money was the only thing he  
 really thought about.  
 I know I picked a little as I look him  
 on my knee.  
 And I turned away a moment as a tear  
 he wouldn't see.  
 Then I heard him say something tighter  
 than I would have thought of.  
 And I said him, "More important than  
 all else on earth now you  
 There's a better thing than money and  
 there's a father joy.  
 And he turned up in the future of a  
 certain little boy.

I couldn't quite explain it for he  
 couldn't understand.  
 But I knew he caught the pressure of  
 his father's eyes and hand.  
 And I know we both grew closer as a  
 field him on my knee.  
 And then to draw a picture of the new  
 I have been here.  
 But what's more, I'd learned a lesson.  
 One that would stay with me.  
 And I would find that evening that  
 I'd spent more time in this life.

"Labor to keep alive in your breast that little spark of celestial fire—conscience"

THIS is the rule George Wash-

 a school-boy.  
 If this old trouble ridden world  
 would observe this good advice  
 most of the things which worry and  
 plague it in these turbulent times,  
 would automatically settle them-  
 selves.  
 Let's all make the occasion of

## MEAT TRUCK LOOTED OF HAM

Eight Are Taken from Machine of  
Swift & Company While Driver Is  
Absent Looking After Repairs When  
It Breaks Down Near Standard Shaft

Special to The Courier.

MOUNT PLEASANT, Feb. 21.—William Queer, a top-rider at the Morewood mine, was hurled from a trip Friday afternoon and severely injured when his head struck the roof of the mine. John Brooks, riding before him, casually looked back and saw that Queer was missing and sensed that something had befallen him. Stopping the trip he found Queer lying unconscious about 100 feet back. The injured man was removed to the Memorial hospital where six stitches were placed in a cut on his right eye and three on the left eye. He suffered other injuries about the face and head but was able to leave the hospital Saturday.

Thieves Raid Truck.  
A meat truck of Swift & Company broke down Saturday near Standard Shaft, and the driver, after hiding the magnets under a lot of hams in the rear portion of the machine, started out to arrange for repairs. When he returned eight hams and the magnets were gone. He reported the robbery to the police here but they have not found any clues.

## SALTS IN HOT WATER CLEARS PIMPLY SKIN

Says We Must Make Kidneys Clean  
the Blood and Pimples  
Disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Epsom salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal action, thus causing them to filter the blood of impurities and clearing the skin of pimples.

Epsom salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Do you have a pimple on your face? Which usually makes pimples? It is the impurities in the blood and is caused by the kidneys not well.

## WOMAN SICK FOUR YEARS

Was Finally Made Well by  
Lydia E. Pinkham's Vegetable  
Compound

Stevens, Miss.—"I was all run down and nervous with female trouble and my sides pained me so at times that I could not walk. I suffered for four years with it. Then I saw your advertisement in the paper and began taking Lydia E. Pinkham's Vegetable Compound. I feel stronger and am able to do most of my housework now. I recommend your Vegetable Compound to my friends and you may use this letter if you care to do so."—Mrs. W. H. BLAKE, Route 1, Stevens, Miss.

How many women, overworked, tired and ailing, keep up the ceaseless treadmill of their daily duties until they are afflicted with female troubles as Mrs. Blake was, and are run down, weak and nervous. But every such woman should be convinced by the many letters like hers while we are constantly publishing, by reading beyond question that Lydia E. Pinkham's Vegetable Compound will overcome such troubles and restore women to normal health and strength. Letters about your health will be given careful attention and held in strict confidence if you write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

## FREIGHT RATES TOO HIGH, HIGHER THAN TRAFFIC WILL BEAR

Declares the Publicity Adviser of the  
Pennsylvania Railroad Must Be  
Retrenched Elsewhere.

Unless present conditions are remedied, freight rates of the country will be forced into government ownership, so says Lee, publicity adviser to the Pennsylvania railroad, declared at a recent conference of the Industrial Relations Association of America in New York. Mr. Lee said the difference between railroad earnings and cost of operation was so narrow that indifference on the part of operators meant the difference between success and failure for the roads. The railroad managers, Mr. Lee said, do not get a way out of their dilemma in this respect.

"The railroads believe the present freight rates are too high, higher than the traffic will bear," said Mr. Lee. "To meet the requirements of the situation and to get money enough to operate the lines reductions must be made elsewhere."

After declaring that the Pennsylvania railroad was not reactionary, Mr. Lee asserted that the public had the right to expect the railroads to supply adequate facilities to handle traffic that they be operated upon reasonable rates, that no interruption of traffic should occur and that wages paid by railroads or other public service corporations, should not be of such a character as to disturb labor conditions elsewhere.

Mr. Lee characterized the problem of unemployment as being the most difficult to solve of any. He said it must be solved if the present system of business is to survive.

## SAYS OLD AGE DUE TO LOST GLAND POWER

Also the Cause of Many General  
Run-Down Conditions

Animal Extract Tablets Now Used  
to Build Health and Strength  
New for Young and Old

It is necessary for men and women to become old at 35 or 40 due to the present method of living or to science coming to the rescue and turn the clock back for those of us who are growing old before our time.

This is the question that is uppermost in many people's minds since the announcements concerning monkey and other animal gland operations secured this world a few months ago, when men of seventy and eighty were reported to have experienced a return of health and strength that they had not enjoyed in many years, as a result of the animal gland operations.

But animal gland operations are not the only thing. Science has discovered that it is possible to put gland extracts in tablet form which can be taken in the form of a pill.

These tablets are called Glandex Compound and are sold by nearly all druggists under the manufacturer's guarantee that if it doesn't bring desired results within a very few days the purchase price will be refunded.

So perhaps the fountain of youth and health has at last been discovered. Who knows? Certainly it is worth trying. The Glandex Compound, Inc., 244 West 20th St., New York City.
